**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a professional astronomer working with contracts for NASA and NSF. My work includes uploading, processing a large amount of data from space and ground-based telescope. Several months ago, I made a switch to sonic fiber since ATT was unable to support the high speed rate needed for my work. Sonic has been working flawlessly, their cost is similar to DSL ATT but for a speed 20-50 times better. We need a competitive broadband internet in this country to make sure we can work and creating the USA of tomorrow.
